

What's in this catalogue

Thomas & Betts is proud to present a new and improved catalogue for its line of Hazlux® industrial lighting products.

From the Atlantic to the Pacific coasts, these fixtures are certified for use in some of the most demanding industrial environments Canada has to offer and are built to keep performing even under the most adverse conditions.

Whether you are a specifying engineer, electrical distributor or an electrical contractor, this catalogue has been designed to simplify the lighting fixture selection process. For each model of lighting fixture, you will find the following information:

- sample fixture assembly
- catalogue numbering system
- accessories
- dimensional drawings

To match fixtures with the right applications, at the top of each right-hand page you will find a reference listing all applicable compliances and certifications.

Hazlux® lighting fixtures – explosion proof lighting for hazardous and adverse environments.
