

# Meet the gang.

The newest members of the **IBERVILLE® LHTQ™** family have arrived.

Ganging up boxes manually for multiple device wall outlets is time consuming and often inefficient. Save time and effort with pre-ganged **BC2304-LHTQ™** steel outlet boxes in 2-, 3- and 4-gang configurations.

Like the original **BC2304-LHTQ** device box, these new pre-ganged models are precision welded for superior strength and provide additional capacity to accommodate a greater number of conductors.

What's more, the BC2304-LHTQ-2, BC2304-LHTQ-3 and BC2304-LHTQ-4 incorporate all the patented, time-saving features you've come to expect from original **IBERVILLE® LHTQ** device boxes.

- Positioning guides for drywall and outside wall applications
- Retractable positioning tabs for double drywall
- Internally embossed mounting slots
- Flat box sides for maximum stability and holding prongs
- CSA-approved one-screw mounting up to 2-gang\*

Put the **BC2304-LHTQ gang** to work for you. Look for these new models at your local participating electrical distributor.

**IBERVILLE LHTQ** – innovative design and quality manufacturing are a **family affair**.

\* Per CEC 12-3010(3), boxes over 4 in. (100 mm) wide require additional support.
