

T&B new product alert

StarTeck® Teck Cable Fittings Stainless steel fittings now available up to 2-inch hub size

www.tnb-canada.com

The StarTeck® (ST) series range of fittings for teck and ACWU cable has recently been expanded to include stainless steel fittings in 1-1/4 to 2-inch hub sizes.

Designed for end-users by end-users, StarTeck teck cable fittings accommodate a broad range of cables, minimizing the possibility of mismatched cables and fittings in the field.

Available in aluminum, steel, stainless steel and PVC-coated aluminum and steel, StarTeck fittings are ideally suited for use in demanding environments.

For complete product details, consult the "What's New" section of our web site.

Thomas & Betts
