

RAVE REVIEWS

but always up for an encore!

When it comes to performance,
the **IBERVILLE® LHTQ™** family just keeps on delivering.

BC1304-LHTQ™

14.25 cubic-inch capacity instead of the 12.5 cubic inches standard for this category of box.

BC3104-LHTQ™

16 cubic inches of capacity for heating and GFCI applications.

BC2304-LHTQ™

Precision-welded durability and 14.25 cubic-inch capacity. Also comes pre-ganged for multiple device applications.

BC1018-LHTQ™

18 cubic inches, our largest box ever, for the heaviest duty applications.

Thanks to your support, our fan base just keeps on growing.
IBERVILLE® LHTQ™ - innovative design and quality manufacturing are a **family affair.**
