

Did you know...

... that the Cobra™ one-piece cable and pipe clamp is now available in a 1/4-inch size?

Specifically designed for use with small diameter cables such as those used in fire alarm and data applications, the **Cobra** Clamp attaches a full range of EMT, rigid conduit and cable to strut channels. It also allows cables or pipes to be removed easily without disturbing neighbouring pipes.

For complete product details, consult the "New Products" section of our web site.
