

THE CELEBRATION CONTINUES!

Ty-Rap®

The original cable tie turns 50!

In 1958, Thomas & Betts revolutionized cable management with the introduction of Ty-Rap®, the original cable tie.

Since that time, the often imitated, yet unequalled Ty-Rap® cable tie has never stopped evolving. UV-resistant cable ties, high-temperature cable ties, detectable cable ties and more... Since 1958, we've brought you innovation, never imitation.

With half a century of industry firsts behind us, we're looking forward to the next 50 years.

Tell us what's next and you could win!

What's the next Ty-Rap® innovation? Submit your idea at:

www.tnb-canada.com/en/tyrap50

From now until June 27, we'll be holding weekly prize drawings for prizes like \$150.00 Petro-Canada gas cards and Samsung S85 digital cameras.
