

# You're in the business of energy.

## So are we.

From extraction to upgrading and all points in between, Thomas & Betts products have brought electrical energy into Alberta's oilsands projects for over 30 years.

Today, products such as T&B **Cable Tray Systems**, StarTeck® **Cable Fittings**, Hazlux® **Classified Area Lighting**, and Color-Keyed®/Blackburn® **Power Connectors** are hard at work throughout the oilsands.

With an established reputation for quality engineering, safety and service, you can count on Thomas & Betts products to perform in the harshest environments.

**Thinking electrical energy? Think Thomas & Betts.**
