

A century of progress.

In the space of just over one hundred years, electricity has revolutionized every facet of our daily lives. The evolution of Thomas & Betts as a company parallels the technological advances made possible by electricity. As a myriad of new applications were invented to harness the power of electricity, Thomas & Betts added to its offering, developing new products to meet the needs of the burgeoning electrical industry.

Today, Thomas & Betts offers one of the widest ranges of products available from a single manufacturer, covering many of the items used in a typical electrical application.

Powered by Canadians for Canadians

Thomas & Betts Canada Ltd is a uniquely Canadian-managed and operated company with more than 1,800 employees across the country, working in eleven ISO-certified manufacturing facilities, five regional sales offices, a head office and a master distribution centre. We are committed to serving the unique needs of the Canadian marketplace with products and services that consistently exceed performance and safety expectations.

Through continuous improvement and innovation, Thomas & Betts Canada is ready to meet the challenges of tomorrow and the next century.
