Powered by Canadians

...for Canadians.

Thomas & Betts products have been bringing electrical power into Canadian industry, businesses and homes since 1898. Today, with more than 1,600 employees across Canada, Thomas & Betts remains committed to serving the unique needs of the Canadian market.

We're extremely proud of our 30-year relationship as a supplier-partner to electrical distributors, engineering firms, contractors and end-users working in the development of Alberta's oil sands.

Products such as T&B **Cable Tray Systems**, StarTeck® **cable fittings**, Blackburn® **mechanical and compression connectors**, Hazlux® **classified area lighting**, and Ty-Rap® **cable ties**, to name just a few, are hard at work throughout the oil and gas industry ensuring a safe and reliable source of electrical power. What's more, our Edmonton-based regional sales office and cable tray manufacturing facility provide personalized service and support as well as shorter lead times on custom cable tray orders and other key items.

Working together, with you and for you, we'll achieve our mutual objectives – **good results**.
