

Working hard. With you ...

... for you.

Thomas & Betts is proud of its 30-year record as a supplier of electrical products to Alberta's oilsands projects.

Today, products such as **T&B Cable Tray Systems**, **StarTeck® teck cable fittings**, **Color-Keyed® compression connectors**, **Hazlux® classified area lighting** and **T&B liquidtight and portable cord fittings** are hard at work throughout the industry directing, protecting and managing the flow of electricity.

Whether in classified hazardous areas or administrative complexes, Thomas & Betts products have a proven track record of meeting, if not exceeding, the exacting standards and safety requirements of Canada's oil and gas industry. They've also been known to simplify installation and maintenance.

Thomas & Betts - we're working hard, with you and for you, to achieve good results.

Find out more about Thomas & Betts by calling **1-866-540-8220** or visit www.tnb-canada.com/en/oilsands.asp.
