

# The low profile solution

**IBERVILLE**® presents our exclusive low-profile electrical box. The **BCR2000** is the ideal solution for display counters and other restrictive areas.

- **Quick to install: at least 3 times faster than current methods**
- **No need to cut and damage the vapor barrier**
- **Can be installed on all types of vapor barriers**
- **18 cubic inch capacity: 50% more than traditional boxes**
- **One CI4004 connector included**
- **CSA approved for mounting with only one screw**

*That's not all!*

**IBERVILLE**® also has a new and exclusive CI66-PPH protector plate.

- **Protects cables running on top of a stud**
- **Easy to install**

**Thomas & Betts**

# As easy as 1•2•3

## BCR2000

1

Position the box on top of the stud.

2

Screw the box to the stud using the center hole for one screw mounting.

3

Insert the cable into the box.

- View with drywall installed.
- Will accept most GFCI outlets maximum depth of 1-1/8".

The innovative design will allow you to easily extract the box without damaging the drywall.

## CI66-PPH

The protector plate can be used for a single stud or multiple stud installations.
