

# The fast track in cable management systems

for power, voice and data cables

**Reduce installation time up to 50%**

# Save **TIME**

## QuikLok® tray connections at record speed

In any project, installation time is key. Our patented QuikLok® tray connects straight lengths of tray at record speed. No connection components or tools are required. Available in 2 and 4 inches depths.

Insert.

Push down.

Locked!

# Save **MONEY**

## TabLok™ bracket support system

Attaching ExpressTray® lengths to brackets has never been easier or faster! The TabLok™ profile eliminates the need for hardware, reducing installation time and cost! Only a screwdriver is required.

Slide.

Push tabs down.

Locked!

# Increase **FLEXIBILITY**

## Adaptable tray for an easier installation

The ExpressTray® system requires no corner, crossing or bend elements. Any layout can be achieved, any obstacle overcome, simply with a length of tray and a pair of wire cutters.

\* Safety glasses are recommended when cutting wire tray

# A solution for all spaces

ExpressTray® wire basket tray is offered in depths from 2 to 6\* inches and in widths from 4 to 24 inches. To meet the needs of a wide range of installation environments, it is available in electro-galvanized and hot-dip galvanized steel as well as stainless steel and epoxy painted.

A full range of splices, brackets, accessories and hardware is available as part of the ExpressTray® wire basket tray offering.

## Check-out ExpressTray® popular accessories

### Splices

To connect straight lengths, bends, angles or joints.

Various splices are available and simply require a pair of pliers or nut driver to assemble.

- Universal splices
- Adjustable splices
- Quick splices

### Brackets

Support basket tray using our TabLok™ brackets that eliminate the need for additional hardware.

- Straight brackets
- “J” brackets
- “L” brackets

### Clamps

Secure large cable dropouts to the end of cable runs or construct trapeze and center-hung supports with threaded rod; whatever the configuration, there's a clamp to meet your needs.

- Side hanger clamps
- Universal clamps
- Threaded rod clamps

### Lay-in-lug

Easily installs, no disassembly required, its slotted hook design sits securely onto the mesh intersections to restrict swiveling.

### Bat clip

No tools required, reduces installation time to a minimum.

To install, hook one wing under the strut flange and push down the other wing with your thumb to slip it under the strut flange.

# ExpressTray®

Get the job done in half the time,  
save on your installation cost,  
increase your routing flexibility.

ExpressTray® wire basket tray is available in a range of materials and finishes to simplify installation and provide superior performance whatever the installation environment.

## **Data Centres**

Need total protection for data centres? Prevent the formation of zinc whiskers with ExpressTray® stainless steel, hot-dip galvanized steel or epoxy-coated steel basket tray.

## **Food & Beverage Processing**

When hygiene is critical, ExpressTray® stainless steel basket tray is the solution. Easy to maintain and highly corrosion resistant, it prevents dirt build-up and provides unimpeded liquid drainage.

## **Shipbuilding**

Lightweight and flexible, ExpressTray® stainless steel or hot-dip galvanized steel tray is the perfect solution in places like marine vessels where saving space is essential.

## **Harsh Environments**

In harsh environments, ExpressTray® stainless steel basket tray offer corrosion and chemical resistance as well as the ability to withstand extreme temperatures.

**Solution Sets** | *Total Project Cost Reduction*  
*Corrosion & Harsh Environment Protection*

# ExpressTray<sup>®</sup>, the fast track in cable management systems for power, voice and data cables.

Complicated cable routing layouts become simpler with ExpressTray<sup>®</sup>. Once you are familiar with the basic configuration, the possibilities are unlimited. Here is a sample guide to ExpressTray<sup>®</sup> basics as an inspiration for future projects.
