

The Next Great Innovation in Conduit Bodies Allows a 4-to-1 SKU Reduction

BlueKote® LU® universal conduit elbow makes pulling cables against walls or ceilings easy.

Replacing LL, LR, LB and C conduit bodies, the BlueKote® LU universal elbow goes anywhere a conduit elbow is needed. Significantly reducing the number of parts you need to stock, it can contribute to significant savings in conduit bodies and labour.

- 4-to-1 SKU reduction — replaces LL, LR, LB and C conduit bodies
- Radius is the same as the bent conduit. Pull wire through the body.
- Angled cover port — easier wire pulling and uses standard covers
- BlueKote® four-layer protection provides internal and external corrosion resistance
- UL Listed as an enclosure — splices allowed inside the LU
- Rated for 40% wire fill
- CSA Certified
- Look for the Thomas & Betts blue interior

Replaces LL, LR, LB and C conduit bodies

Goes anywhere a conduit elbow is required

Rated for 40% wire fill

Thomas & Betts. Your best connection for innovative solutions.

The BlueKote® Universal Conduit Elbow replaces LL, LR, LB and C conduit bodies
