

Another innovative solution for Wire and Cable Management

**EXPRESS
EXPRESS
TRAY**®

The fast track in cable management systems

ExpressTray®
wire basket tray.

A complete
and cost-efficient
solution.

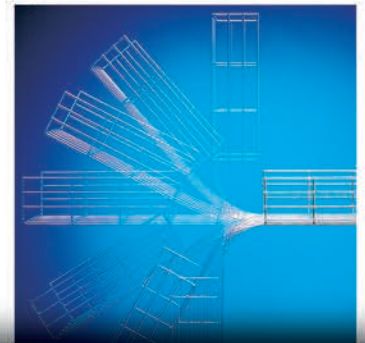

The **ExpressTray**® cable management system is a complete solution for managing light power, voice and data cables in commercial and industrial facilities.

Simple, speedy installation

No fittings required

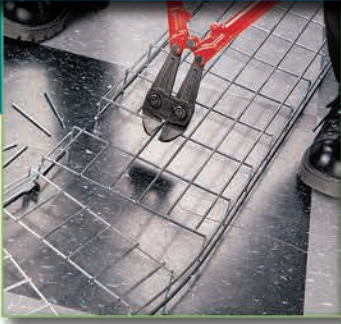

Adapts to changing needs

- No complicated layouts required prior to arriving on the job site
- Cable runs can be customized on site using only tray, hardware, a wire cutter and a nut driver
- Requires no additional corner, crossing or bend elements
- System can be easily reconfigured to meet future needs
- Little or no wasted materials – even cut trays can be reused
- **EXCLUSIVE QuikLok™** tray profile and **TabLok™** bracket support system speed up installation even further
- Made of high strength, welded steel wire
- CSA Certified

Thomas & Betts. Your best connection for innovative solutions.

A complete and simple system

Customize any layout with a length of tray and a pair of wire cutters.

Mount tray to walls, floors, racks and cabinets.

Connect and configure with a wide range of splices and hardware.

ETG lay-in ground lug installs easily with no disassembly required.

The **ExpressTray**® wire basket product line is a complete system that allows you to configure bends, tees, crosses, reductions/expansions and drop outs simply and efficiently. It includes:

- Tray depths from 2 to 6 inches
- Tray widths from 2 to 24 inches
- U, C and L profiles
- 6-inch deep U profile meets CSA "C" loading at 3 m support spans
- Standard tray length is 10 feet nominal (3 m)
- Angular offset wire cutter and nut drivers
- Splicing hardware
- Brackets and accessories

For complete product information, including configuration and loading details, refer to the T&B® Cable Tray Systems catalogue.

Built for speed!

Lock lengths of tray together within seconds with no connection components or tools with our **QuikLok**™ system.

Position.

Insert.

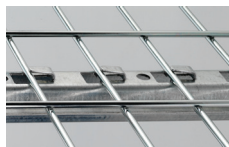

Push down.

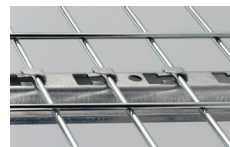

DONE!

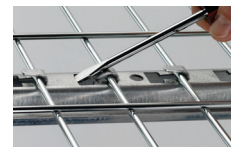

No need for hardware to attach ExpressTray® tray lengths to brackets with our **TabLok**™ bracket support system.

Position tray length over brackets.

Slide tray under tabs.

Lock tabs down.

DONE!
