

## EZ2 Canopy

Quick & easy installation

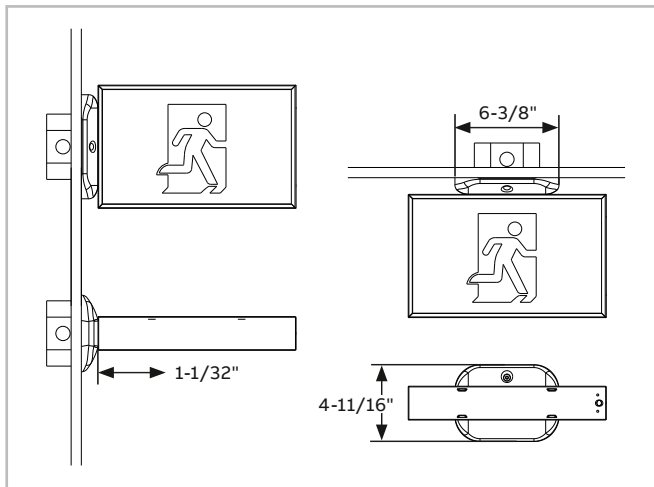

### Typical specifications

The **EZ2™ Canopy** allows the installer to make all of the electrical connections using both hands without having to juggle with the exit sign, making it our most contractor friendly product feature to date.

Simply attach the backplate to the junction box, clip the canopy on the exit sign, hang the canopy on the back plate, make your connections using both hands, slide the unit in place, one screw and the job is done!

### Dimensions

Dimensions are approximate and subject to change.

### Installation

- 1) Attach the backplate to the junction box, clip the canopy on the exit sign
- 2) Hang the canopy on the back plate, make your connections using both hands
- 3) Slide the unit in place, one screw and the job is done!
